

**Council of the Village of St-Pierre-Jolys is proud to display the new Cemetery Gates, a long awaited dream for this council. The cement foundation was built so that additions to the gates may be installed in the years to come therefore this project will continue to be part of our budget sessions in the future.**

**These beautiful gates were designed and fabricated by Roger Tessier of Tessier Ventures Inc.**

**Would anyone like to submit a name for this Cemetery? Council invites everyone to participate in finding a name that could then be engraved on the doors. You can call or drop by the Village office for more information.**
